## COMMENT OF THE DAY

## De Gaulle's Cup

A FORTUNE teller who predicted some months ago all the events that have taken place since then in the life of General Charles de Gaulle would have had a job to credit his own prognosis. Things have gone so easily for the French Prime Minister that he must find it hard at times himself even to believe them now.

Put in power by a rising of extremist supporters in the Army, he has taken over the reins without making any concessions to the extremists... yet they continue. If sometimes a little hollowly and because they have no choice, to show loyalty to de Gaulle.

At home the General's moderation has impressed those who feared a dictator, but the ferment of national exaltation centred on one man has not wavered. And the success of the public loan in which those with hoards of gold were invited to turn them over for the good of the nation in exchange for bonds has completely revised all text book opinions about the nationals of this land of traditional insecurity.

## Rising Star

In Africa, too, the General's star was rising. Extremists were bewildered at the appointment in his cabinet of so many of the men they had risked their careers and their rebellion to depose. They had every reason to feel indignant when they saw the losers back in some sort of saddle, their own leaders slighted, and M. Jacques Boustelle still without a job.

But the General had impressed Morocco and Tunisia—always as all Middle Eastern countries, more ready to be impressed by one man than by a committee, and by strength than moderation or justice. Yet the General's policies surprised them with their moderation, and perhaps because they thought that here might be a man strong enough to take his way whether they liked it or not. General de Gaulle suddenly found surprising allies in the two lands that should have been his enemies.

When rebel Algerians arrived in Tunis for a second North African conference, they faced a very poor reception and were not even asked to the meeting which they had come to attend.

On top of these developments, the visit by the British Prime Minister came as a kind of crown. Fresh from his quiet visit to America and Canada, Mr Macmillan was received at Paris Orly airport with a brilliant display that outshone any similar kind of political reception in months. This display was followed by talk described also as a "brilliant diplomatic success."

They topped a number of personal appearances made by de Gaulle with equally theatrical brilliance presenting him not only as the man to whom France must look because there is no other of his stature, but also as a man capable of finding his way through to a better national future. One is reminded of his words in less propitious time "I am France."

## Prospects

YET even at this point, de Gaulle is not secure. Everything for him and for France waits on Mr Dulles. There is no reason to suppose that Mr. Dulles' visit tomorrow will upset the General's apparent. There is even less reason to suppose that Mr. Dulles would have any such wish. Yet American approval of the General's aims in Algeria is almost vital to their success.

For the future of de Gaulle and France hopes for the future of France depend much on their development of Saharan resources—the financial nut of insurrection in Algeria. And France has not always been able to rely upon American foreign influence. Since Russia's reversion to terror Mr. Dulles has become a man of greatly increased status. If General de Gaulle can win his tacit approval of his plans in Algeria, his own prospects will be even more greatly improved. However, it is unlikely that the Algerian rebels are not also aware of this, and Middle Eastern politicians are adept at timing their "spontaneous" demonstrations. Saturday is unlikely to go unnoticed in Algeria.

## IMPORT CEILINGS FIXED

## India, Pakistan Reach Understanding With UK 'DEPENDS ON HONGKONG'

London, July 2. An "understanding" has been reached between Britain on the one hand and Pakistan and India on the other on ceiling levels for cotton imports into Britain. The agreements are conditional upon satisfactory arrangements being reached with the Hongkong cotton industry. A Cotton Board announcement released tonight said it was expected that a document embodying this understanding would be signed in the near future.—France-Presse.

'Save Us From Bleeding To Death'  
LANCASHIRE PLANS MASS 'PILGRIMAGE' TO LONDON

London, July 2. Plans for a mass "pilgrimage" to London by 3,000 Lancashire cotton workers were laid at a meeting in Nelson, Lancs today in an effort to save the textile industry "from bleeding to death."

It is hoped the demonstration will be led by every Lancashire mayor and backed by three million signatures.

The scheme was born at a meeting held today by the Mayor of Nelson, Councillor Mrs Elizabeth Kay, who will ask the Lord Mayor of Manchester to put himself at the head of the protest.

Mr Sydney Silverman, Nelson's Member of Parliament, who flew from London to attend today's meeting, said they would try to get the petition sent to the Government before the Parliamentary recess,

## MILL OWNER DENOUNCES BRITISH GOVERNMENT'S ATTITUDE ON COTTON

London, July 2. The "profound disappointment of everybody in Lancashire with the Government's attitude to the cotton trade" was expressed by Mr Alec Higham, Chairman of Higham's Limited, who owns mills at Accrington and Rochdale, in London tonight.

Mr Higham was speaking at the annual meeting of Higham's Limited at the Dorchester Hotel.

"I think it is deplorable," Mr Higham said, "that this government takes the view it does with regard to the development of the cotton trade."

No Doubt

"They admit that 304 mills have shut down, they admit that the ever-rising imports from the Commonwealth are a source of danger and a source of trouble to the industry, and yet they are prepared to do absolutely nothing about it except to play lip service and hope by plausibility to regulate this."

"There is no doubt that the cotton industry is slowly bleeding to death, and if these unfeared imports of Commonwealth textiles are to go on, more and more mills will have to close because they are not only being allowed in without any duty whatsoever but those imports also come in at prices which we cannot compete with, due to their labour costs, etc."

"It would not be so bad if it was fair competition, but it is not fair—it is grossly unfair—and the whole position is steadily worsening."

Mr Higham added: "We try to export to the Commonwealth, but what are we faced with, tariff barriers, import quotas and the like, and we

## Taipei Scientists Will Go To Moscow

Taipei, July 2. NATIONALIST China has decided to participate in the fifth meeting of the International Geophysical Year to be held in Moscow next month. It was learned today.

Doctor Lee Shun-mon, chairman of the IGY China Committee, said he had requested the special committee of this international organization to make the necessary arrangements for three Nationalist Chinese scientists to attend the meeting in the Soviet capital.

Russia regards Communist China and has repeatedly questioned Nationalist China's representation in various international meetings.

It is the first time that Nationalist China has decided to send a delegation, official or unofficial, to a Communist country since the Chinese Communists took over the China mainland nine years ago.—U.P.I.

Hungarian refugees and Americans in New York demonstrated before the Soviet delegation building in New York United Nations HQ following the news of the execution of Premier Nagy by the Communists. This photo shows a group of former political prisoners of the Russians wearing clothes similar to those they wore in prison. — Reutel

## Altringham Says:

## LET THE QUEEN LIVE IN THE COMMONWEALTH'

London, July 3. Lord Altringham today urges residence by the Queen in Commonwealth countries and dismisses as "nonsense" the suggestion that her home life would suffer.

## QUEEN MOTHER INCIDENT Tape Recordings Destroyed

Bristol, July 2. A man who recorded the Queen Mother's remarks at an agriculture show today was ejected by police who destroyed two reels of tape.

The man, who refused to give his name, said afterwards that he had recorded about two minutes of the Queen Mother's comments to officials at the Royal Chow.

"This is just a hobby of mine, recording the voices of interesting people. I did not know I was doing any harm," said the man who wore a green beret and a lapel microphone for his miniature recorder.

He then said the internal revenue service could look over the tax returns of his various companies to see if the Bureau had been diversified because there were many aspects of British life she wanted to see. (Contd. on back page, Col. 4)

## Another Nuclear Weapon Tested

Washington, July 2. The United States exploded another nuclear weapon in the Pacific today—the 11th announced test in the current "hard-hitter" test series.

The announcement made no mention of the size of the weapon or the success of the test.—UPI.

## To Stay In Gaol

Tokyo, July 3. China today said it would not release four Americans imprisoned on spy charges until they had served their sentences. Two received life terms.

U.P.I.

Garcia Returns

Manila, July 3. President Carlos Garcia came home today from a "highly successful" goodwill and loan-seeking trip to the U.S.—UPI.

ManLeaps  
From Rush-hour Ferry

STAFF REPORTER

Workers crossing from Kowloon to Hongkong at about 8.45 this morning by the Oriental Star, a Star Ferry Company boat, had their usual morning crossing enlivened by a human drama in mid-harbour.

A 50-year-old Chinese dressed in a T-shirt and grey shorts jumped from the ferry into the harbour. The ferry stopped as shouts of "man overboard!" went heard.

Passengers rushed to the side of the ferry as the man floundered in the harbour. A number of life-buoys were thrown into the harbour as the man drifted away from the ferry. Then Marine Launch No. 7 appeared on the scene and after manoeuvring about, the Chinese was hauled out of the water.

He was taken to the Hongkong Star Ferry Pier, where he walked to an ambulance appearing none the worse for his early morning dip in the harbour.

New Soviet Note To Ike

Washington, July 2. The Soviet Premier, Khrushchev, sent a new note to President Eisenhower today. A Soviet Embassy spokesman said it was a "new initiative toward lessening world tension." The U.S. State Department said the note was a message concerning the question of a surprise attack.—Reuter.

That Blasted Conference

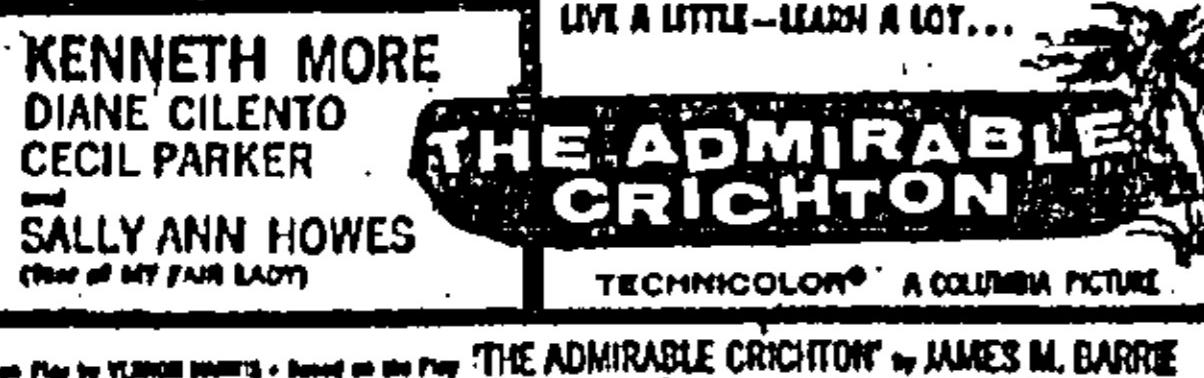

SIR JOHN COCKCROFT

London, July 2. The British scientist, Sir John Cockcroft, returned to London by air tonight after attending the Geneva talks on detection of nuclear tests. At London airport he declined comment, saying with a smile: "I am not going to talk about that blasted conference."—Reuter.

## IKE SIGNS BILL

N. ATLANTIC ALLIES  
TO COORDINATE  
ATOMIC DEFENCE

Washington, July 2. President Eisenhower today signed a bill permitting the United States to exchange atomic weapons secrets with North Atlantic allies. The President's signature brought the bill into law and paved the way for specific agreements. Negotiations for such agreements are in progress with Britain.

The legislation stemmed from President Eisenhower's recommendation last January that the restrictive atomic energy law should be amended to permit the information exchange.

One provision of the new bill gives to Britain the authority to transfer the non-nuclear portions of atomic weapons. Under the original recommendation the President sought authority to permit such transfers to other friendly nations.

Congress reserved the right to veto any agreement to give another country information. This was designed to ease fears that the President's powers would be too sweeping and that the legislature could broaden the atomic arms race.

The signing of a British-United States agreement to share atomic weapons secrets is imminent.

## Secret Details

President Eisenhower's signature today is expected to be followed this week by a detailed agreement for which negotiations began last month.

The bill limits the more valuable exchanges to Britain for the time being, and in anticipation of final approval, British and U.S. officials opened negotiations before Congress completed action earlier this week.

Because of the restrictive nature of the old atomic energy law, the negotiators could not discuss certain top-secret details without which the agreement would be incomplete.

But the President's signature today leaves open the last loophole. U.S. officials said it was only a matter of hours before negotiations would be wound up.

British officials were delighted when it was learned that the President had signed the bill.

They said that the more fruitful atomic partnership in prospect between the United States and Britain would eliminate wasteful duplication and strengthen the entire Western alliance community.

The proposed agreement is expected to provide for an exchange of secrets on the design, construction and use of nuclear weapons; the purchase by Britain of a nuclear power plant for a submarine; and the coordination of United States and British programmes in weapons research, development and production.—Reuter.

Government  
Did Not Veto  
Archbishop

London, July 2. A government spokesman said today the British Government had never sought to veto the Archbishop of Canterbury's invitation for Cyprus Archbishop Makarios to attend the London Conference here.

The Earl of Perth, speaking for the government, told the House of Lords both the Colonial Office and Foreign Office were aware in advance that the invitation was going to be sent to the spiritual leader of the independence movement in Cyprus.

The Archbishop of Canterbury's representative was advised that in the judgment of the government, the matter was an ecclesiastical one. Lord Perth said.—U.P.I.

It's Either Too  
Wet Or Too Dry

Tokyo, July 3. Flood waters began rolling back in western Japan on Wednesday after taking a toll of five dead, two missing, 30 injured and 12,000 homeless. Elsewhere in the country, drought persisted despite scattered thunder showers. In Tokyo, electric power was cut 10 per cent and citizens went into their third day on a 30 per cent reduced water supply.

In flood-stricken Hiroshima and Shimane prefectures, authorities estimated a loss of US\$1,500,000.—U.P.I.

Democrats Slice  
\$872,000,000

By VINCENT J. BURKE

Washington, July 2. The House of Representatives passed a \$3,078,092,500 Foreign Aid money bill today after rebuffing President Eisenhower's appeal to restore any of the \$872 million slashed from his request. The final vote was 258 to 146.

The House sent the pared-down bill to the Senate within hours after the President accused the Democratic-steered House appropriations committee of "taking reckless risks with our safety" by making the cut.

He told his news conference he was sure the American people "will demand" that Congress ultimately approve his full request for \$3,040,000,000 to continue the flow of military and economic aid to other free nations this fiscal year.

## Vote It Down

Copies of the President's statement were made available to House members in the Speaker's Lobby directly behind the House Chamber. But the House proceeded to vote down a series of Republican amendments to restore a total of \$130 million to the bill.

Before the final vote, the House rejected, 214 to 165, a last-minute attempt to send the bill back to the appropriations committee with instructions to add an additional \$75 million for defence support...a form of economic aid.

As approved by the House, the bill represented a cut of 22 per cent from the President's original request. The bill also was \$507,500,000 short of the legal ceiling set for the programme under the recently-enacted Foreign Aid authorisation law.—U.P.I.

He Stole  
A Ship  
To Make  
Fortune

## Aspirations

He declared that "a meeting of heads of government would not respond to the hopes and aspirations of mankind" if they met under an injunction that seals their lips to that they could not even mention the great political issues that gravely trouble their relations and endanger world peace."

Russia wants to exclude such questions as the Soviet satellite states and the re-unification of Germany.)

Mr Macmillan said Mr Khrushchev's letter of June 11 had made it perfectly clear "that you and we have two totally different objectives in view yours is simply to convene a summit conference, ours is to negotiate a settlement of some of the differences which divide us."

General de Gaulle warned of the dangers that lack of real agreement might be "scratched" by a general formula bearing the germs of fresh misunderstandings. "We must take the path of precision," he said.—Reuter.

NEW BORN BABY  
GIVEN AWAY

Manchester, July 2. Mrs Roy Winkley, 26, left hospital here with a newborn baby and drove to a hotel to hand it over to Mrs John Lee.

Mrs Winkley and her husband chose the Lees out of hundreds who wrote asking for the baby when they announced months ago that they would not keep it. They have three other children.

Mrs Winkley said "I cannot stand howling babies. I know Mrs Lee will make a far better mother for this child than I." She left without a backward glance. "I shall never see this baby again," she said. "I do not want to."

The Lees who cannot have children of their own have told a collector to start adoption proceedings.—China Mail Special.

## POP

The Cost  
Of Terror

Nicosia, July 2.

In Cyprus claimed the lives of 408 people—including 106 Britons—between the beginning of the emergency on April 1, 1955 and June 30 this year, it was announced today.

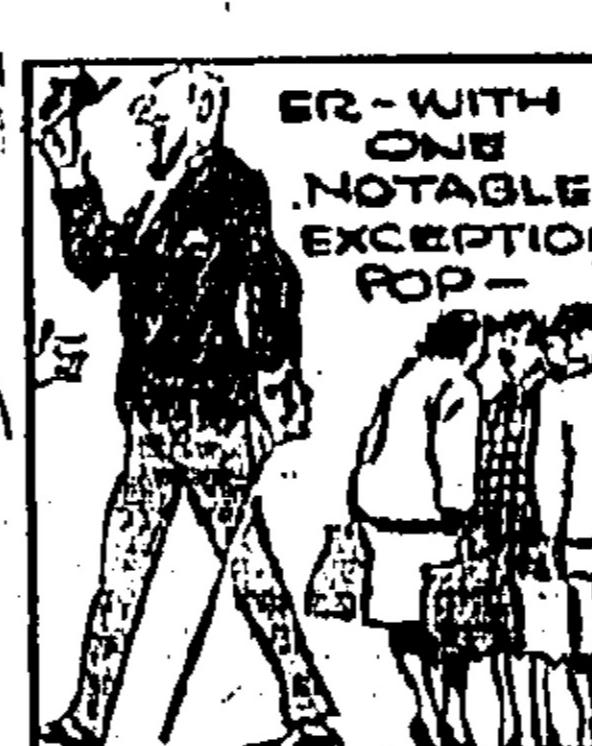

Official records also show that up to June 30 this year there had been 1,459 injured, made up of 598 servicemen, 30 British civilians, 70 police and 614 Cypriot civilians.—Reuter.

Refuse To  
Transmit  
U.N. Letters

United Nations, July 2. The Soviet, Hungarian and Rumanian delegations to the United Nations refused to transmit to their respective governments the letters dealing with the trial of former Hungarian Premier, Imre Nagy, it was stated today.

The President of the U.N. special committee on Hungary, Alister Anderson of Denmark, said the letters, written by a committee, asked the three governments to explain the conditions under which Nagy and other leaders of the Hungarian liberation movement had been judged and condemned.—France Presse.

## Attack On Beirut Airport Ends In Complete Rout

### CABLE BRIEFS

Greensboro, N.C., July 2. House Grower A. K. Moor, Sr., agreed to pay his two grandchildren a penny for each Japanese beetle they caught and killed.

The children already have exterminated 2,700 c.—or \$27 worth.—U.P.I.

Jackson, Miss., July 2. James L. Spencer's court act after being sued in yesterday's municipal judge was to pay a \$1 fine for overparking.—U.P.I.

London, July 2. Spiritualist Maurice Barbant lectured at a literary lunch here yesterday. The title of his lecture was "Dead Men Do Tell Tales."—U.P.I.

London, July 2. A father told a juvenile court yesterday that his son, who had run away from home 208 times, suddenly seems to be overcome with "a strange urge to be somewhere else."—U.P.I.

Lyon, Col., July 2. A full-scale search for three-year-old Rena Fiddler was called off yesterday when she was found behind a dresser at home. She said she hid because she didn't want her hair combed.—U.P.I.

Paterson, N.J., July 2. Mrs. Blanche Addison complained to police yesterday that while she and her husband were shopping someone stole \$800 pinned inside her brastrace. —U.P.I.

London, July 2. Mrs. Dorothy Smith, 25, is willing to admit that her 10-month-old daughter, Patricia Ann is a bonny baby, but that does not give admirers the right to fondle the child.

So she put a notice on the baby carriage saying: "Admirers are asked not to touch this baby. Thank you."—U.P.I.

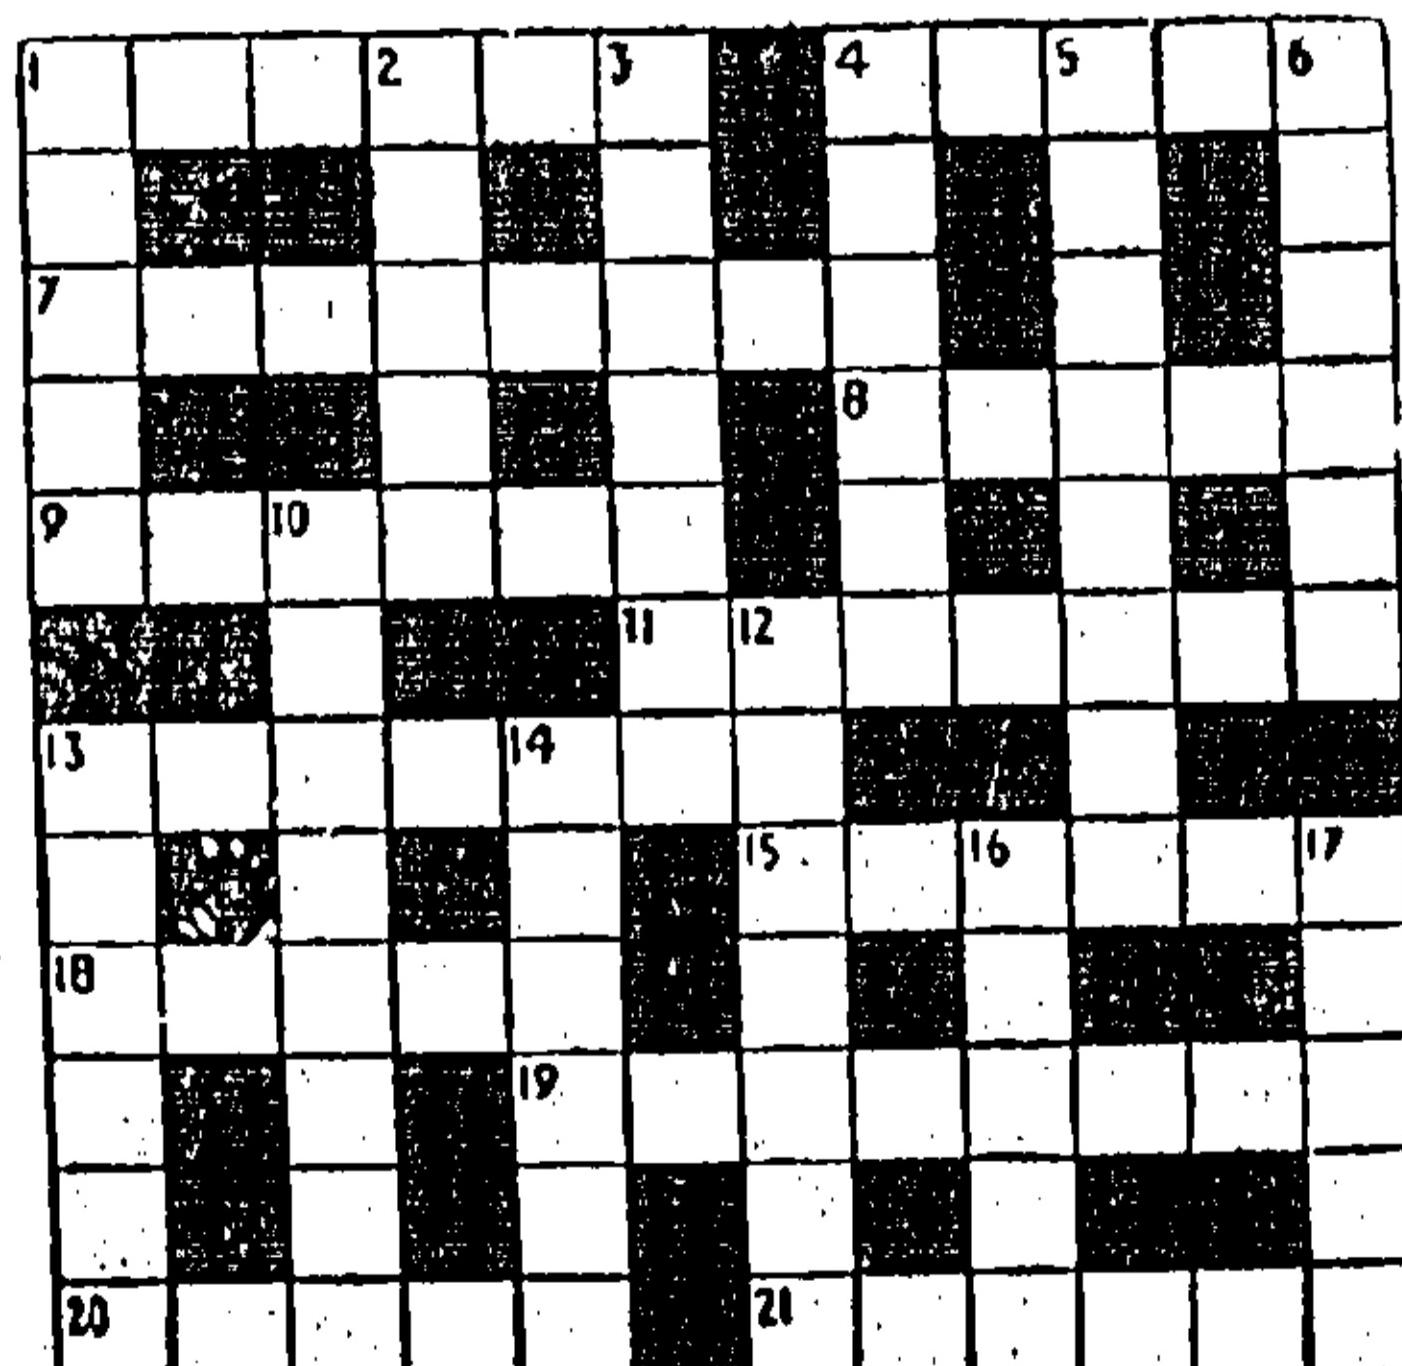

Glasgow, July 2. Somebody seemed to want to get through on the phone from Mr. Walter Montgomery's home in Glasgow yesterday—but the switchboard operator could hear only "odd noise."

So police called Mr. Montgomery from his fruter's shop, and along he went with two detectives, expecting burglars. Cautionously he opened his door—but nothing lay in wait but his playful seven-month-old Labrador puppy Cherie.

She has been told not to go bunting about near that phone again.

Copenhagen, July 2. The Open Air Council complained today that the sand dunes of a single Danish beach held 400 pounds of broken glass, nails and empty tins.—U.P.I.

### RAINDROPS IN THE QUEEN'S EYE?

Raindrops in Queen Elizabeth's eye? She is sheltered from most of the rain as members of Britain's Territorial Army (a "part-time" army made up of civilian volunteers), marched past in Hyde Park, London, as part of the Territorials' jubilee celebrations recently. Beside the Queen, Prince Philip salutes.—Express.

### Sixth Fleet Units Leave Lebanese Waters

London, July 2. Heavy units of the U.S. Sixth Fleet have withdrawn from Lebanon waters, a Naval spokesman here said tonight.

Vessels involved, which have operated in powerful task forces in the eastern Mediterranean for more than a month, included the aircraft carriers Saratoga and Essex, the guided missile cruiser Canberra and the heavy cruiser Des Moines.

**LIBERTY PERIODS**

These ships and their escorts began arriving in western Mediterranean ports for liberty periods late yesterday, it was said.

Amphibious vessels attached to the Sixth Fleet with embarked marines remained in the eastern Mediterranean. They have been in the area ready to move in and protect U.S. citizens in Lebanon since trouble blew up there in May.

The spokesman in London declined to comment on the ship movement except to say that it was "routine."—U.P.I.

### Escapes With False Leg

London, July 2. A one-legged prisoner from Wandsworth Gaol escaped today while trying out a new artificial leg at a London hospital.

Doctors did not believe the prisoner—Glyn Peters, a Welshman aged 31—would get far because it was the first time he had worn the new limb.—China Mail Special.

It was the first time the rebels have actively sued for a truce, since the Lebanon insurrection began in this port city eight weeks ago.

Mina rebel chief Zukhr Radina asked for the ceasefire from Tripoli Army commander Col. Anwar Karim after almost a week of sporadic clashes in which Karim's men did not hesitate to shell buildings from which they were being shot at.

**TRUCE CONDITIONS**

Under Karim's truce conditions the rebels agreed to put their arms under cover and not to carry them anywhere in the Mina area.

But the Army did not order the Mina rebels to surrender their weapons and the truce applied only to the Mina area, a tip of land jutting into the Mediterranean.

Elsewhere in Tripoli sharp rifle and automatic weapon

### MALIK IS HOPEFUL

Washington, July 2. Lebanese Foreign Minister Charles Malik indicated today that it would perhaps be possible to reach a settlement of the Lebanese crisis without foreign military intervention.

In a statement after a half-hour talk with the Secretary of State, John Foster Dulles, at the State Department, Malik said there were many measures

which could be explored and tried without using the "last resort" which Dulles referred to in his press conference yesterday.

Malik said it was a mistake to focus world attention on this aspect of the question. He said he was more convinced than ever that the United States had a solid policy toward the Lebanese crisis, and that he was certain the United States would prevent any attack on the independence, sovereignty and integrity of his country.—France-Presse.

Clashes, occasionally punctuated by artillery fire, continued all day long.

Buildings in the Mina area began waving white sheets from roofs and windows early in the morning.

**LOSING ZEST**

There were signs in the rest of Tripoli that the rebels still holding out in the old city may be losing zest for the fight after a week of fairly heavy fighting.

Meanwhile, the offensive launched by Druse rebels, under Kamal Jumblatt against the mountainous area southeast of Beirut ended in a complete rout tonight.

The rebels, including many Syrians from the Druse hills who infiltrated into Lebanon in recent weeks, withdrew in small groups to the high Chouf area.

**ABANDONED**

Lebanese Government troops and pro-government volunteers were cleaning up the villages abandoned by the rebels between Aley, Chenian, Souk El Gharb and Bayssour.

The deep valley of Qadadiyah now separates the Government forces from the insurgents. The threat to Beirut presented by the rapid rebel advance on Rihdeh International airport has completely disappeared.

The last engagement, which continued for 10 hours, ended with 63 rebels, including three Syrians, in the hands of Government troops. A large amount of military equipment was also seized.—U.P.I. and France-Presse.

**THE SHAH IS A HIT AT LUNCH**

Washington, July 2.

The Shah of Iran smilingly warned today that the price of Persian rugs is going to increase because of more stringent child labour law in his country.

He noted that children under 12 years of age in additional source of labour for the hand-made rug industry, can no longer be put to work.

**THE SHAH IS A HIT AT LUNCH**

The Shah drew a roar of laughter from the National Press Club when he smiled and added: "I suppose those who love these rugs will pay a few additional dollars."

The audience of newspapermen was amused by a story told by the Shah to prove that there is free speech in Iran.

"In our country the tonsils

are removed the right way—

from the mouth. You can open it," he said.—U.P.I.

**Long-Supported**

The group was set up by

powerful veteran politician Haj Mohammed Hussein, recently ousted from the pro-Western Somali Youth League of which he once was the president.

Hussein has long supported

the policies of UAR President Gamal Abdal Nasser and has a

considerable popular following.

Pro-Nasser elements have been increasingly active in recent months in strategic Somalia,

which borders on the British crown colony of Kenya and on independent Ethiopia.

They have been supported by

Somali language broadcasts from Radio Cairo which some Italian

newspapers assailed as "undue interference."

The Agency said the would-be

assassins had attempted Djambek's life because their families were being subjected to extor-

tion.—Reuter.

**NATIONALITY**

Djakarta, June 3.

The people of Dutch-ruled

West New Guinea will be re-

garded as Indonesian citizens

under the terms of a new bill

passed here on June 1, according

to political observers.

The bill, however, makes no

direct mention of the disputed

Papua territory which Indo-

nese claims.—Reuter.

**Americans Back SISTER SHIP OF PAMIR TO SAIL AGAIN**

Hamburg, July 2.

The 3,181-ton barque Passat, sister ship of the ill-fated

Pamir, will sail again, it was

announced here today.

The four-masted windjammer

was withdrawn from service

shortly after the Pamir sank

during an Atlantic hurricane

last September with the loss

of 80 lives.

The Passat, too, ran into

trouble last year when it

stridged for help after its

cargo shifted at sea.

The vessel later managed to

right itself and to reach home

safely.

Its owner, the Pamir-Passat

Foundation, comprising West

German shipowners, told a

press conference the ship

would be sent back to sea in

order to give young sea cadets

experience at sea.

They said the 46-year-old vessel

would be re-equipped "with

regard for the latest ex-

periences."

### Goldfine Alleges Being Used As Club To Beat Adams

By TOM NELSON

Washington, July 2. Industrialist Bernard Goldfine swore today that he neither sought nor got special favours from his friend Sherman Adams. He charged that politics prompted a House Subcommittee's airing of charges to the contrary against him and the presidential assistant.

Rep.

## ROUND-UP

### ARMY DOES ALL IT CAN TO HELP

**T**HE Army is sparing no effort in getting officers and men re-settled in civilian life. The new careers chosen cover an amazingly wide field. There is the case, for example, of the officer, shortly leaving the Army because of redundancy under the new defence policy, who has bought a small general shop and sub-post office in the Buckinghamshire village of Lavendon. To prepare him for his new life the Army first sent him on a fortnight's course to a Birmingham chocolate factory to learn the know-how of selling sweets and chocolates—with a special eye for the children. His next "course" was to serve for two weeks behind the counter of a Chester grocer's shop. And all this while he was still a serving officer.

### SCOTLAND HONOURS HER WAR DEAD

**T**HE annual commemoration service to honour Scotland's dead in the two World Wars will be held at the Scottish National War Memorial, Edinburgh Castle, on July 15. The service will be conducted by the Principal Presbyterian Chaplain to the Royal Air Force, the Rev. Mr. James, and the address will be given by the Rev. Canon A. Giles, Chaplain-in-Chief, R.A.F. Detachments that will be sent by the Navy, Army, and Air Force, the British Legion Scotland, and the Merchant Navy, whose representatives will lay wreaths. At the conclusion of the service there will be a march-past headed by the pipers and drummers of the 1st Battalion the Black Watch, whose military band will also be in attendance.

### MINING COAL BY WATER POWER

**A** COMPLETELY new system of getting coal is to be tried out in a first experimental installation of hydraulic mining at Tredegar Duffin mine near Treharris, Glamorgan, says the National Coal Board. In this process the coal is extracted by the power of high velocity water jets directed at the coal from a powerful hose, called a monitor, which can deal with depths of 100 fathoms. When the coal has been broken down, the water jet is used again to clear the floor of working place and to drive the coal along to the point of collection. Only four men are needed to work each monitor—one to control the monitor and the others to attend to the pipes and fix supports.

### BRITAIN'S 5,000 MINE SPOTTERS

**T**HIS year strength of the Royal Naval Minewatching Service has risen to more than 5,000 men and women—the highest number since the Service was formed in 1952. London alone has more than 350 members. In any future emergency it would be their job to see that商船 shipping survives an aerial mine attack. Over 1,400 men and women volunteers in the four Naval Commands—Norfolk, Portsmouth, Plymouth and Scotland—are now taking part in an inter-command minewatching competition. Finals take place in Scotland on October 4th. The Nore Command contest, which took place at Chatham, was won by Hastings—one of the smallest in the South-East. Three women were in their team of 12. They were runners-up.

### FISHING PORT PLAN FOR PORTSMOUTH

**P**LANS for making Portsmouth one of the principal fishing centres on the South Coast are to be discussed by the Corporation Docks and Development Committee. One suggestion is that part of Portsmouth Dockyard be converted. Trawlers from Portsmouth could operate for a start in the Channel and rail connections with London, and excellent prospects of recruiting former Royal Navy men to the fishing industry.

### THE SUSSEX "LOBSTER CRAWL" BEGINS

**T**HE "Crawling Season" has begun along the South Coast and from now until the end of September, from Selsey Bill to Dungeness, it will be every lobster for himself with the holiday-makers looking for him. It is the season in which lobsters crawl about the warm pools and rocky sea-beds. Sussex fisherman call it "Crawl-time." Mr. H. M. Boniface, chief fishery officer for Sussex, says: It is expected that the lobster fishery season will improve after the third week in June when the shell fish crawl away from their remote rocky haunts.

### HELPING THE OLD SOLDIER

**S**INCE the Trustees of Luton, Bedfordshire, War Memorial Fund recently revealed that it had over £1,000 to give away to local ex-Servicemen and women nearly 200 applications for grants have been received. The chairman of the trustees' investigating committee says that, out of 46 cases considered, assistance has been given to 27. Clothing, footwear or coal was provided in most cases. Other instances of help include the renewal of radio licences for two old age pensioners, the redemption of a suit from pawn, and a contribution towards funeral expenses.

## The last of the Hell-Raisers hits it rich . . .

**I**N a Paris film studio Errol Flynn was playing his big scene opposite a jumping bean called Toto and an actress called Juliette Greco. Just out of camera range, two anxious men, producer Darryl F. Zanuck and director John Huston, stood chewing at their cigars.

After the 19th unsuccessful take Flynn called for a glass of brandy and said to me: "There was a time I'd have told them to go to hell. I'd have told them it was 7.30 and I was going home. But now it's different. Now I work."

Zanuck and Huston had more than the usual anxieties of film production to contend with. With another three weeks' work to be done on their film, Roots of Heaven, they are nervously watching the clock and the headlines.

Zanuck said: "I am in bad too much. His future was studied my part; usually there constant touch with the State a long way behind him.

But Flynn, like one of those improbable characters he used to play, has survived against all odds and is today enjoying a new spell of success as an actor. For films like *The Sun Also Rises* and *Too Much Too Soon* he has had the best notices in his 20 years as a movie star.

"But it was mostly bravado; 80 per cent of the public knows about me as a playboy actor. And I didn't disillusion them. I let them think that.

"I always felt like an imposter, that I didn't deserve the fame and acclaim—and money—I got. People liked to think about me as a playboy actor. And I didn't disillusion them. I let them think that.

"It may come as a horrible surprise to you, but I'm a pretty erudite fellow. I read. I've read most of the philosophers, though I must admit I never got all the way through Karl Marx—I'd like to meet the man who did."

"I have no money problems at all now. All my debts are paid off!"

Moreover, he finds himself once more in the agreeable situation of being a millionaire. "Some investments I had in Jamaica suddenly paid off," he told me, "and I estimate I've got property there worth £1,000,000.

On the set, Flynn was playing his scene for the twentieth time. This time it was perfect. Afterwards in his dressing-room he was able to relax and unwind; and the last of the Hollywood hell-raisers, the untroubled star, began to talk about himself, about his remarkable life which he describes as "an open newspaper."

After 20 years of riotous living, of having made fortunes, lost them and made them again, Flynn is once more able to support himself in the manner he has been accustomed to.

"I have been living very modestly in Paris," he said, "on 2,000 bucks a week. How do I spend it? All you need to do is to know me, and you wouldn't have to ask."

The last time I met him, in Hollywood two years ago, he was broke, he hadn't enough money to buy a car; he was considered a has-been who had

"I always thought I could act," he said, "but my innate modesty prevented me from telling anyone."

"They used to say, 'Oh, Flynn! Just give him a sword and a horse and let the so-and-so do something.'

"Sometimes I'd turn up at the studios in the morning after a very heavy night without having

revealed this fact secret of his private life—the only one that has not been blazoned in black

"Today Flynn feels able to go back to the basic, primitive ways of living: to the business of being a man and a woman in this world, and to stop worrying about it."

"I'm feeling so good now, I feel any better I'd be sick. I don't want to look into it and ask why—that might ruin it. I have just got to keep out of the way of the psychiatrist. They may tell me it's all wrong that I'm feeling so good."

I asked Flynn whether he had ever been in love, and he said: "Yes, twice in my life."

Only one strange and macabre fear runs through Flynn's life—the fear of going insane.

"That's true," said Zanuck, "but the trouble is you can't expose Stalin without also exposing his former henchmen, who are now the powers in Moscow."

"I had a choice between doing a whitewashed version of his life and not making the film. I decided not to make the film. For the time being, anyway."

go after the trump suit. Eventually, you take a first round diamond finesse and discard your two remaining low clubs on diamond and the queen of hearts.

Dave played the hand just this way. It might not as well have seen all the hands because it was apparent to him that East's diamond discard could not have been from the queen and it also was certain that East needed the spade ace for his vulnerable overall.

Incidentally, it should be pointed out that the way the hand lay, East and West had several ways to beat the hand but when the defence slipped Dave was right there to take full advantage of it.

**SHOES**

Hollywood. PRODUCER George Pal doesn't think civilisation has progressed much in the way of footwear. We're still behind something that was in vogue 2,000 years ago—the Athenian thonged sandal.

"Those Greeks of Athens were way ahead," he said. "I got hold of an old shoe catalogue to find out what kind of footwear people were wearing in the last century. Had to know for The Brothers Grimm, which I'll probably start working on soon. Anyhow, the catalogue and illustrations from books and magazines on the time show we're behind that period in some ways in being intelligent about shoes—and we're still further behind the Athens boys."

Pal, whose "Tom Thumb" (sic) is just about completed for release, said men's shoes in the Grimm's days were more or less comfortable buckled slippers. Women were in a state of near-torture because of high buttoned pumps which usually were worn about two sizes too small.

"Men apparently are creatures of habit," the producer said. "I

think the man who sells him his shoes privately expresses great praise for the Athens version of a shoe. This sandal was tops in comfort and health, he told Pal, although it obviously wouldn't do too well at the South Pole. However, he convinced Pal that if men really worried about their feet, they'd be wearing more sandals more often.

"Men apparently are creatures of habit," the producer said. "I

**YOUR BIRTHDAY ... By STELLA**

**THURSDAY, JULY 3**

BORN today, you are best suited for the cultural and intellectual life. You are a born researcher and can gather masses of information with facility. You will be a little too retiring for your own good. You have a firm work ethic, a fresh, revitalised point of view, and the arts are already determined to get it. But you are not the type to tout your talents or talents of other women loud and clear. Since you are so highly selective in your close associates, you are not one to share your innermost thoughts with anyone.

Among those born on this date were John Singleton Copley, early American painter; Dame Barbara Hutton, socialite, dancer, couturier and signer of the Declaration of Independence; and King Haakon VII of Norway.

To find what the stars have in store for you tomorrow, select your birth date from the following corresponding paragraph. Let your birthday star be your daily guide.

**FRIDAY, JULY 4**

CANCER (June 22-July 23). With the long holiday week-end, enjoy your Fourth of July holiday to the utmost. Relax tensions and renew fun.

VIRGO (Aug. 24-Sept. 23). This should be a happy, friendly day. If the weather is fine, have fun, perhaps of a family picnic.

LIBRA (Sept. 24-Oct. 23). Attend an outing. You might just find it in the stars for a new romance. It is in the stars for you today.

ARIES (Mar. 21-Apr. 19). An exciting event can make this one long to be remembered with pleasure and satisfaction.

TAURUS (Apr. 20-May 19). You can make this an especially happy day for others if you will put yourself out just a little.

SCORPIO (Oct. 23-Nov. 22). You would appear to be very favoured at this time. Your long holiday week-end should be a gay start!

SAGITTARIUS (Nov. 23-Dec. 22). If you are driving, be sure to anticipate crowded road conditions if the day is pleasant. Get an early morning start!

**SIDE GLANCES** By Galbraith

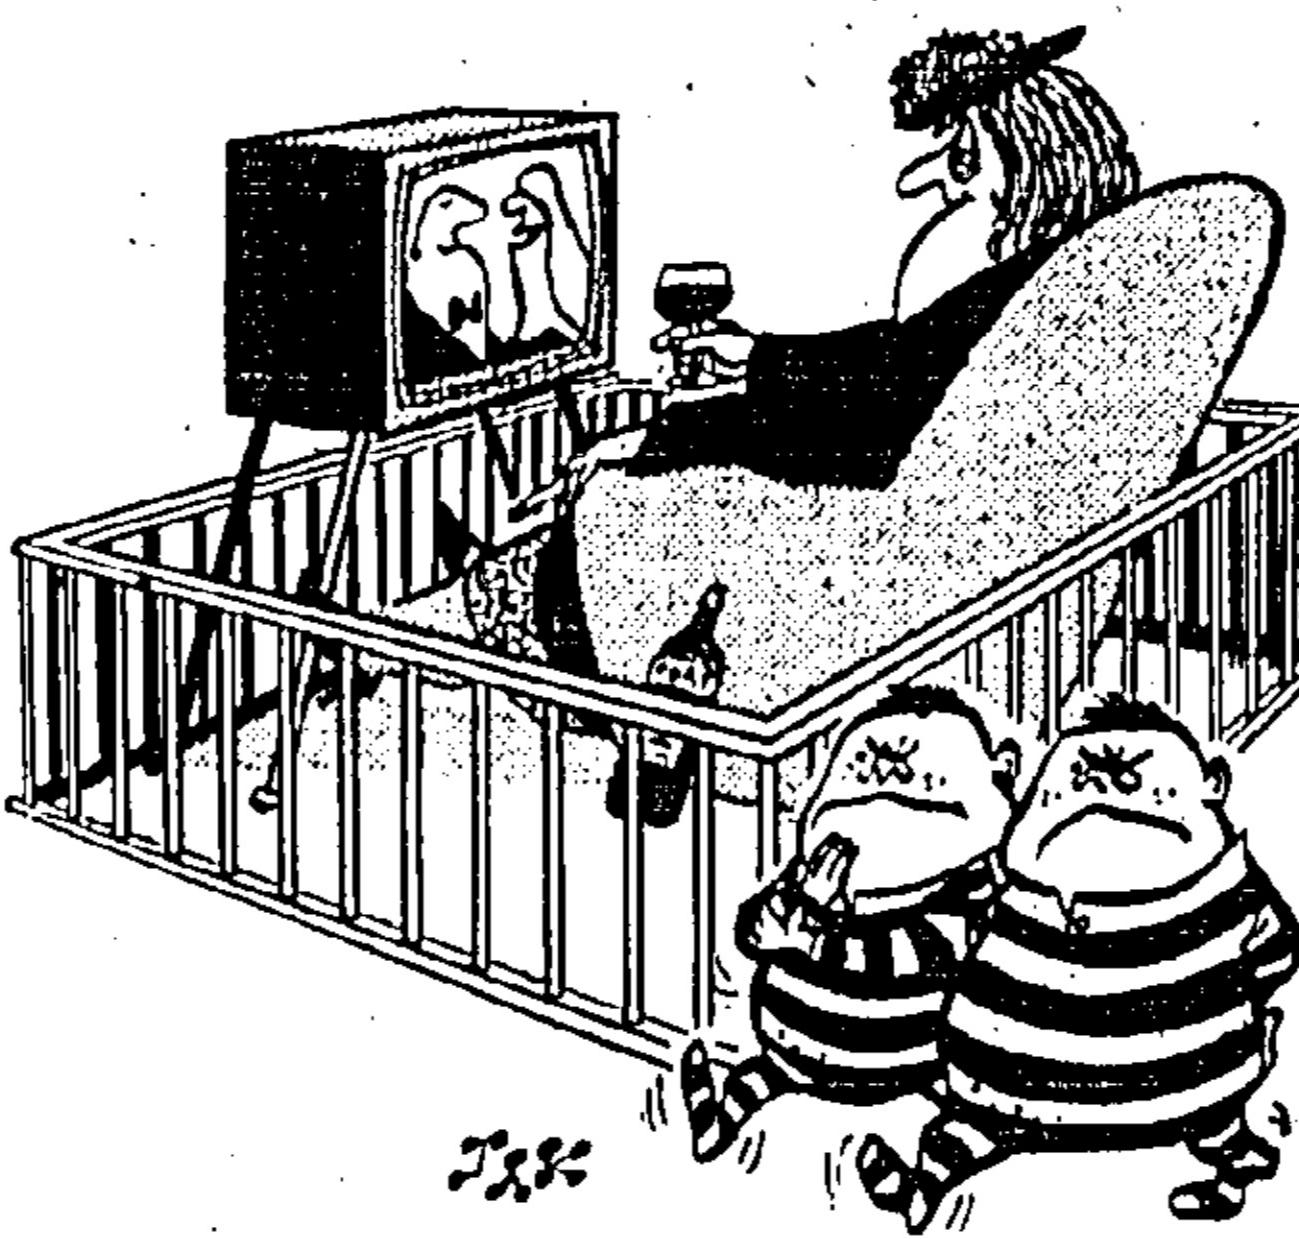

"Yes, I remembered your birthday! And if you look in your pocket you'll find the greeting card I gave you to mail yesterday!"

THE CHINA MAIL, THURSDAY, JULY 3, 1958.

**WOMANSENSE**

**Business is booming  
for the baby-sitters**

**—BUT IS 3s. 6d. AN HOUR TOO CHEAP?**

"The perks that do not appear on the tax returns vary . . ."

**I**T seems everyone wants to get into the babysitting business. Teachers, secretaries and students are taking it up. Housewives, schoolchildren and shop assistants do it. Retired nannies love doing it.

Baby-sitting is a booming business. In central London alone there are six agencies specializing in baby-sitters, and they are small suppliers beside the private-enterprise sitters who find work through shop window and newspaper advertisements and from knowing someone who has been asked to dance and does not know what to do with baby.

"It seems that the whole world wants to baby-sit," Miss Iva Hughes, director of a Czech-Slovak agency, told me wearily. "And the parents return to us again and again, asking for more help. And they all telephone to tell me so. Nobody seems able to live on their pay these days, so

they hope to make a bit extra looking after babies in the evening. All too often their only qualification is that they have a little piece of two and a half."

Miss Hughes will not accept a sitter who is not either trained in child care or has children of her own. "Young married women with children are best," she said.

Planning

If you are planning an evening out and want to leave someone else holding the baby, you can reckon on adding up to a fiftieth to the price of the cinema seats.

The cost of a sitter-in varies from about 3s. 6d. an hour for the trained kind to between five and ten shillings an evening for a student or secretary.

The LCC, besides running day nurseries, also supervises a

child-minding service, where a suitable woman looks after a child during the day. She charges anything from 25s. to 3 gns. a week, and gets a few shillings from the LCC. This gives them the right to come and see that she and there are no steps with deep pools, or

other child-traps.

If she is morally and legally above reproach anyone who earns money is expected to tag the baby-sitting fees on to their tax returns. But few do.

A tax man told me: "Naturally, we don't go around to people's houses asking them if they employ babysitters. We leave it to the honesty of the people concerned."

Most agencies charge a 2s. 6d. fee which the sitter collects along with her money. And all of them have two firm rules. The baby-sitter must be taken home if the parents are late, and she must be left the telephone number of either them or their doctor.

DILEMMA

This avoids the dilemma that faced one first-class secretary who was left with a screaming three-year-old Czech-Slovak. Hugging the child to her, she raced for the medicine cupboard, only to find that all the labels were written in Czech-Slovakian. When the parents returned they calmly announced that their little girl had a mastoid.

The perks that do not appear on the tax returns vary from a cup of coffee and a biscuit to drinks, cigarettes, sweets and a slap-up dinner.

It is the cash and the quiet that make other people's babies such an attractive business proposition to students.

wife. Instead of a diploma, she holds an infant in her hands to two other children howl at her feet.

Traditional Types

Well-wishers who prefer to express their congratulations with less levity will be attracted to the countless traditional graduation greetings that are sentimental in tone, say card designers.

One especially striking card for a boy graduate offers the philosophy of the verse, "If" written in 1910 by Rudyard Kipling. The famous poem begins, "If you can keep your head when all about you are losing theirs . . ."

Keep in close contact with your companion and even—let the Boy Scouts do it every five to eight minutes—look around for your friend and make sure he is safe.

—H. N. BUNDESEN, M.D.

**Don't Go Swimming  
With Wax In Your Ears**

GET the wax out of your ears before you go swimming this summer.

This may seem like silly advice for swimmers. You probably expected me to caution you not to go swimming for at least an hour after eating and not to swim when overheated.

This is valuable advice, of course, but most of you already are well aware of these dangers.

**Serious Problem**

This wax business is something else again. You probably never gave it a thought. But wax in the ears, particularly in only one ear, can be a serious problem to a swimmer. When one ear is clogged with wax, you see, dizziness is likely to occur.

It's practically impossible, as you well know, to keep water out of your ears while swimming. The cold water can easily reach the labyrinth of the unclogged ear, but it cannot reach that of the wax-blocked ear.

**Unbalanced Reactions**

Thus, two different unbalanced reactions are set up. The result is apt to be dizziness and inability to tell the position of the body because the sense of equilibrium is controlled in the ears' labyrinth.

It's really easy to see that under such conditions a swimmer might panic and even drown.

This is just one more reason why all swimmers should follow the example set by the Boy Scouts and recommended by the National Safety Council.

**Buddy System**

The "buddy system," developed and fostered by the Boy Scouts, can do a great deal toward helping to reduce drowning.

It's a simple system: swim no farther than 15 feet from a companion.

Keep in close contact with your companion and even—let the Boy Scouts do it every five to eight minutes—look around for your friend and make sure he is safe.

—H. N. BUNDESEN, M.D.

**HOUSEHOLD HINTS**

Badly soiled furniture can be cleaned by washing with soap and water to which two or three tablespoons of kerosene or turpentine have been added. Rub dry with a soft cloth, then polish or wax.

To quick-dry clothes, place a fan so that air will circulate among the garments as they hang.

**BOYS' AND GIRLS' MAGAZINE**

**The Three Raindrops**

*—How They Lost And Found Each Other Again—*

By MAX TRELL

MRS CUCKOO, who lived inside the clock hung on the playroom wall, opened her door to call out the time.

She was surprised to see everyone clustered around the window—Knut and Hanid, the Shadows with the Turned About Names, Teddy, the Small Sheep, Hallowath, the Small Sheep, Wooden Indian, and Mary Jane, the Rag Doll, watching the rain.

"Oh dear," she said, "I didn't know it was raining. It never rains inside my clock."

"Did I ever tell you the story, Mrs. Cuckoo asked, 'about the Three Raindrops'?"

Knut, Hanid, Teddy, Hallowath and Mary Jane all urged Mrs. Cuckoo to tell them the story of the Three Raindrops, and after taking a glance at her clock to make sure that it was ticking properly (it was), she began her story.

# HENLEY ROYAL REGATTA OPENS IN HEAVY RAIN

## Three Overseas Crews In Action On First Day

Henley-on-Thames, July 3. American, Norwegian and Irish crews were the only overseas entries in action today when the four-day Henley Royal Regatta opened in a continuous downpour. About 15,000 gallons of water was pumped from the boat tents in the past few days and tons of sawdust laid on in an effort to soak up the accumulated moisture.

Harvard and Kent School, of the United States, both scored easy wins in heats of the Thames Cup, the Regatta's second-ranked international event for eightes.

A Norwegian crew, Breman Rolles, easily won their first round heat in the Wyfold Challenge Cup (the second-ranked fours event).

### Watch Stopped

This race was the only one of 47 rowed today which was not timed. The torrential rain stopped the official timekeeper's watch while the race was being rowed.

Two Irish crews were eliminated—Trinity College, Dublin, in the Ladies' Plate (University eights) and the Dublin Police crew in the Thames Cup.

Harvard, who beat Twickenham Rowing Club of London by three and three-quarter lengths in one of the fastest times of the day, were coxed by a tiny West Indian, Marion Bryan, from the Caribbean Island of St. Thomas, in the American-run Virgin Islands.

### Foreign Cox

Lady Margaret Boat Club of Cambridge University also had a foreign cox in their boat when they beat Nottingham University in another Thames Cup heat. The man who steered Lady Margaret to victory was Alexander Yu Lung-lee, son of the Finance Minister in the Federation of Malaya.

Norway's Beeren Club were virtually given a "row over" by

the London Dockers Crew, the V. Argosies, who crashed shortly after the start on the wooden bank bordering the one-mile 530 yards course.

Kent School, who had two lengths to spare over First and Third Trinity, Cambridge, are unfortunately drawn to meet Harvard in the second round tomorrow.—Reuters.

### First Results

Henley, July 2.

Final results were:

**Thames Cup (For Eights)**

First Round

Oriel College, Oxford, beat Laredo College, Oxford, by a length in 7 minutes 23 seconds; Jesus College, Cambridge, beat Reading University by two lengths in 7 minutes, 25 seconds; Kent School (United States) beat 1st and 3rd Trinity by two lengths in 7 minutes, 17 seconds.

Thames R. C. beat R.A.F. Carlton by a quarter of a length in 7 minutes, 12 seconds; Moseley R. C. beat Kingsbury R. C. by three lengths in 7 minutes, 23 seconds.

### Wyfold Cup

(Coxswainless Fours)

First Round

Queen's College, Cambridge, beat Bedford R. C. by three-quarters of a length in 8 minutes, 10 seconds.

St. Bartholomew's Hospital beat Corpus Christi College, 7 London, R.C. by a length in 8 minutes, 7 seconds.

Emmanuel College, Cambridge, beat Garda Slochana R. C. Dublin by  $\frac{1}{2}$  length in 7 minutes, 22 seconds.—France Presse.

Isti R. C. beat London R. C. by  $\frac{1}{2}$  length in 7 mins, 15 seconds.

West Bedford, Roy Marshall (56 in 91 minutes) and Jimmy Gray, who hit 64, gave Hampshire a fine start, and a stand-off of 64 in 95 minutes for the seventh wicket by Peter Salmon and Harrison consolidated the position.

# OLYMPIC PROGRAMME SQUABBLE

## RAIN WASHES OUT MOST COUNTY CRICKET MATCHES

London, July 2. Rain again scythed through the English first-class cricket programme today.

Of the six county championship matches scheduled to begin play was possible in only three and in one of these—the game between Kent and Leicestershire—a start was not made until after tea.

But once the Kent-Leicester game did get under way, the shocks came thick and fast.

Willie Watson, the visiting captain, won the toss and put Kent in on the rain-affected wicket—and in just two hours Kent were shot out for a mere 101 for its lowest score of the season.

After John Prudger and Arthur Pheby had scored 23 for the first wicket, the home county's resistance crumbled and Kent were all out in 32 overs.

Derby replied with 25 for the loss of Arnold Hammer.—Reuters.

### Did The Damage

Pace man Brian Bothwell (five for 30) and off-break bowler John Savage (four for 12) did the damage.

By the close Watson and Maurice Hallam had made 17 without being separated and Leicestershire were only 15 runs away from first innings points.

Harvard, University (U.S.) beat Twickenham R. C. by three and three-quarter lengths in 7 minutes, 10 seconds.

St. Catherine's, Cambridge beat Leytonbury R. C. by  $\frac{1}{2}$  lengths in 8 mins, 7 seconds.

Oriel College, Oxford, beat Kensington R. C. by  $\frac{1}{4}$  lengths in 8 minutes, 17 seconds.

St. Catherine's, Cambridge beat Leytonbury R. C. by  $\frac{1}{2}$  lengths in 8 mins, 7 seconds.

Harvard, University (U.S.) beat Twickenham R. C. by three and three-quarter lengths in 7 minutes, 10 seconds.

West Bedford, Roy Marshall (56 in 91 minutes) and Jimmy Gray, who hit 64, gave Hampshire a fine start, and a stand-off of 64 in 95 minutes for the seventh wicket by Peter Salmon and Harrison consolidated the position.

For example, the Olympic soccer tournament is already limited to sixteen countries, and a qualifying system is necessary although preliminary knockout competition is out of keeping with the concept of the Games.

They were not intended to be an International contest but a world jamboree of sport in which people of all countries take part for the pleasure of it.

## Better A Few Full-Scale Competitions Than A Great Number Of Side-Shows

By DEREK JOHN

Mr Avery Brundage, President of the International Olympic Committee, is like a woodman in charge of an overcrowded forest. He must either prune his trees or cut some down.

The programme of the Olympic Games has grown from six sports in 1896 to nineteen sports in 1956. The world's greatest festival of sport has become too large and too costly.

So woodman Brundage has decided to do some pruning before the 1960 Olympics are held in Rome.

He has cut out team awards in equestrianism, cycling and the modern pentathlon. He has cut down the number of shooting, canoeing and gymnastic events.

He has also told International Athletic and Swimming associations that they must try to reduce the number of their competitors.

Pruning Policy

Mr Brundage is right when he says something has to be done to reduce the size and cost of the Olympics. But I entirely disagree with the pruning policy.

Brundage should reach for his axe and cut some sports out altogether.

Which sports? For a start I would suggest soccer, basketball, water-polo and hockey.

Brutal action, certainly. But better to have a few full-scale competitions than a large number of side-shows.

TOMORROW

Lawn Bowls

Open Pairs (2nd round). Matches at HCC, HKCC and BGC.

Army v CYMCA (Army Pool) 5.15 p.m. RN v RAF (Navy Pool) 6.15 p.m. RN v South China (Victoria Park Pool) 6 p.m. HKR "A" v HKR "B" (Victoria Park Pool).

For example, the Olympic soccer tournament is already limited to sixteen countries, and a qualifying system is necessary although preliminary knockout competition is out of keeping with the concept of the Games.

They were not intended to be an International contest but a world jamboree of sport in which people of all countries take part for the pleasure of it.

three places at an Olympiad. Restrict countries to one competitor for each event and some of the world's best athletes will be excluded.

Athletics is the chief sport of the Olympic Games. Indeed, in ancient times, athletics WERE the Olympics. For, originally, the Games were devised as a test of the prowess of the individual, not of a national team.

### Let Athletics Alone

So I say leave athletics alone. It is the team sports which should go. Amateur footballers, and players of basketball, water polo and hockey want world championships, just as amateur golfers and tennis players have done.

What do the Olympic big-wigs think of this idea? Last September the International Olympic Congress rejected proposals to eliminate team sports. Instead, they added a new one—Volleyball.

They also voted in principle to reduce the size of the Olympic programme. But, at the same time they made it possible for a greater number of sports to be contested.

The Olympic authorities have taken a step in the right direction by deciding to abolish "civilised" team sports—team events which, while there is also an individual result,

In the United States there is so much talent that world champions have sometimes failed to qualify for one of the Olympic jungle.

### R.M.S. "CARTHAGE"

#### NOTICE TO PASSENGERS

##### SAILS:

Friday, 4th July, 1958 at 12.00 Noon for the UNITED KINGDOM, via Singapore, Penang, Colombo, Bombay, Aden and Port Said.

##### BAGGAGE:

Passengers are requested to send ALL BAGGAGE to the Hongkong & Kowloon Wharf Co.'s Godown No. 2 GATE, CANTON ROAD ENTRANCE, By Noon on Thursday, 3rd July.

##### SPECIAL NOTE:

With the exception of hand packages carried by passengers themselves, ALL BAGGAGE must pass through the Wharf Company's Godown for loading on board by ship's slings only.

##### EMBARKATION:

Passengers should embark between 9.30 and 11.00 a.m. on 4th July, 1958.

Subject to alteration with or without notice.

# HONGKONG in PROPHECY

Tai-po-hu Park, Kowloon, Hongkong, Nov. 30, 1958.

DEAR GRANDMAMMA,

Here I am, and safe. Exactly fifty hours after landing you on the platform at Charing Cross I was being hugged by Edwin on the platform of the Kowloon terminus of the London-Kowloon Monorailway, after which we were both whirled off in a motor-rickshaw to the beautiful house which he has built for me.

I rather enjoyed the journey, although the speed was not absolutely break-neck. You don't get that "intoxication of motion" that the Laureate sings about until you are going well over two hundred an hour, and it was only on occasion that we did this."

on their hands. They are on the white obedient, seldom surly, and very good lap-dogs. They can usually dance a little, sing a little, play Bridge a little, etc., and generally wear no eyeglasses (if they can). They are always to be met at tea parties and all shows where women and gossip predominate, and have a good time. They are very good listeners, and give good advice in all subjects and cling to them in all their self-made troubles.

"Such a dear boy," they exclaim, "and so candid, and he knows so much; I don't know what I should do without him."

The Peak disappeared, killed with "radium" and "plutonium" which the walls of houses on the lower levels were painted.

By the application of these substances people found they could be as hot or cool as they wanted. So pukahans and electric fans were relegated to the City Hall Museum. People at last

saw that they gained nothing from the Peak except the fog."

Hongkong, censored to be an island. Some clever person discovered that the most valuable building land was that nearest to the Harbour, and that, if he could build a street of houses in front of the existing one, he would be still more valuable. So he reclaimed, that is, filled up with earth a strip of the harbour and built his street. Then somebody built in front of him again, while the people of Kowloon also took up the game.

In the course of time Hongkong and Kowloon got to be so near to one another that one fine morning it was found to be possible for the inhabitants to shake hands across the small ditch that was all that was left of the Harbour. When the foremost rows of houses collapsed—common thing at that

## TRANSPORTATION

## SAS ORDERS SIX MORE CARAVELLES TO ADD TO FLEET

SCANDINAVIAN Airlines System has ordered six more Caravelle jet airliners at a total cost—including spare parts and related equipment—of approximately 100,000,000 Swedish crowns (US\$20,000,000).

The new purchase brings the total number of Caravels ordered by SAS to twelve. The airline has an option on 13 more.

The order for the additional Caravels was signed in Paris on June 19 by SAS President Ake Russek and Georges Herrel, President of Sud-Aviation, manufacturer of the jetliner.

The first six of the medium-range jet transports were ordered by SAS a year ago. They will be delivered starting early in 1959.

## DELIVERY

The six Caravels ordered last year are scheduled for delivery at the beginning of 1959. They will be powered by twin Rolls-Royce RA.2 Avon jet engines, each developing up to 11,700 pounds of thrust.

Tire will give the Caravelle a speed of approximately 510 miles-an-hour.

The new Caravelle order represents another major step in SAS programme for the jet age. SAS already has purchased seven long-range Douglas DC-8 jet transports for early 1960 delivery.

SAS President Russek said that the purchase of the additional Caravels reflects "our conviction that this jet transport will mark the start of a new era in airline transportation."

"With its unique power plant position—the engines mounted behind the passenger cabin on either side of the fuselage—the Caravelle will literally fly away from noise."

## UNIQUE STANDARD

It will offer SAS passengers a unique standard of comfort.

"We plan to introduce the Caravelle on our routes in Europe and the Near and Middle East early in 1959. The SAS Caravels will probably carry 70 passengers in combined first class and tourist service. They will have a maximum range of approximately 2,000 statute miles."

This medium-range jet transport, which has flown in successful prototype operation for more than three years, will simply reduce travel time on our routes.

"For example, flying time between Copenhagen and Paris, and between Copenhagen and London will be reduced from nearly three hours to less than two hours. Between Copenhagen and Rome, the Caravelle will cut the time from nearly four hours to two hours and 45 minutes."

Tests and demonstration flights with the two prototypes now exceed 2,100 flying hours and more than 700,000 statute miles.

The Caravelle purchased by SAS flies at altitude of between 25,000 to 40,000 feet. Due to land on today's runways, the SAS Caravelle can take off or land in only 5,000 feet with 95,000 pounds (43 tons) gross weight."

## FREIGHT MARKET IMPROVEMENT SEEN

London. An improvement in the world freight market is expected at the Baltic Exchange as a result of chartering of vessels by China.

It is reported that in the recent past Chinese export trading corporations have chartered here about 2 ships mostly for one year's trading, preference being given to Scandinavian owners, presumably because of their traditional neutrality. This is considered as a sign that China's export markets are growing.

Lately the tanker freight market also seemed to a certain degree from Russia chartering of tankers under a recent agreement with the Argentine to supply to this country 1,000,000 tons of Soviet oil.

In normal times, orders of this magnitude would pass almost completely unnoticed, but at a time when hundreds of ships totalling millions of tons lie idle in the world's ports, they are warmly welcomed by Western shipowners—France-Presse.

## HONGKONG STOCK EXCHANGE

## Our Own Correspondent

Business done on the Hongkong Stock Exchange this morning amounted to approximately \$212,000. Noon quotations and the morning's transactions were:

Invest.	1,10	10,60		

Reported to have been under development during the past ten years, this new Caravelle is directed towards a target of guiding impulses based on careful plotting of the course, speed and movements of the targeted vessel and those of the attacking ship. The torpedo is said to be characterised by great accuracy, even if the target should make rapid avoidance manoeuvres.

## PROPELLANT

The speed has been increased by means of new efficient propellants, while the long range of the torpedo will make it possible for the bring ship to launch its attacks outside the reach of the enemy's artillery.

The disclosure about the new torpedo followed only some weeks after the Navy announced that it had carried out successful trials with its Swedish-developed 315 sea-to-sea missile, which can be used for both offensive and defensive purposes. These two weapon systems will form an integral part of Sweden's new "light-weight navy," which is based on the use of heavy and hard-hitting weapons on minor, speedy weapon carriers.

## INDIA-AMERICA SHIPPING RUN

Calcutta. INDIA'S first India-America freight-with-passenger service was inaugurated by the Scindia Steam Navigation Company this week.

A company spokesman said that the Calcutta-to-New York run would be completed in a record 27 days. The run started with elaborate ceremonies climaxing as Mrs Sumati Morarji, Director of the Scindia Co., threw milk and coconut into the river. Highly, in a symbolic wish for smooth sailing for the service.

Later, at an inauguration ceremony, S. N. Patil, Government Minister for Transport and Communications, said America had given India inspiration for economic development.—U.P.I.

## Remote-Controlled Diesel Engines

PRODUCTION of remote-controlled diesel engines for ships has started in the Soviet Union. It is claimed that the remote-control system is a one in this sphere. It starts and stops the engine, controls the speed and reverses the engine. The required number of revolutions and temperature of coolants are automatically maintained.

Automatic signals come into operation when a defect occurs. The captain will have complete control of the bridge of the ship and will be able to control the engines from there.

## Confidence In Future Of British Economy

London, July 2. Strong confidence in the future of the British economy buoyed a firm stock market today and dropped the premium investors must pay to buy scarce dollar stocks to a mere one per cent.

The premium has been as high as 25 per cent reflecting investors' eagerness to purchase dollar stocks as a hedge against their wobbly currency.

Hints of new Government moves to bolster the economy failed to boost prices of gilt-edged securities despite today's seesaw behaviour of sterling. The announcement of another increasing gold and dollar reserves last month came too late to affect the market.

## HESITANT

After a hesitant opening the industrial section improved with steel, some engineering issues and store stocks scoring gains.

Gold share continued their quiet and mostly unchanged.

Oil's backed down from yesterday's higher ground. An exception was Ultramar which firmed on the Chairman's optimistic report.

Gulf lines made fresh advance to feature a generally quiet foreign bond market.—U.P.I.

## No Devaluation

Calcutta, July 2. Mr. Morarji Desai, India's Finance Minister, told the Bengal National Chamber of Commerce today that India "simply cannot afford to devalue the rupee."

He said he had been pained to hear some people—"not laymen, but economists and others"—talking in terms of devaluation. "I have never heard of a more dangerous line of thinking than this," he added.—Reuters.

## Exchange Rates

Business was done in the local money market in Hongkong this morning at the following rates: U.S. dollar (per \$1) ... 7.75 Australian dollar (per £1) ... 12.00 Indonesian rupiah (per 100) ... 7.00 Siam rial (per £100) ... 7.00 Singapore (Straits) ... 1.20

Normal rates of exchange were:

20 industrials ..... 600 1/2

20 rails ..... 110 1/2

Kaiser Industry ..... 80 1/2

## Telephone Company Expansion Plans In Kowloon: New Issue To Be Made

The Hongkong Telephone Company will make a new issue of one million at \$10 shares, plus a premium of \$5 a share at one for three, in the last quarter of this year.

An extraordinary general meeting this morning, a resolution was passed authorising the company to increase capital from \$30 million to \$50 million by the creation of two million extra \$10 shares and issue the shares when the company considered necessary.

In a short speech to the meeting before the resolution was put, Mr D. Benson, the Chairman, said the Company was carrying out a considerable development programme.

The building of new exchanges, one in Mongkok and one

in Kowloon City with a total ultimate capacity of 32,000 lines, had already started and orders had been placed for the necessary exchange equipment and underground cable.

He said it was not possible to finance these two projects out of the company's present resources and additional finances would be required.

The sum of \$2,792,418 had already been obtained by the sale of the majority of the company's depreciation reserve investments, but a further \$16 million would be necessary by the end of this year, he said.

To obtain this, the directors proposed to make a new issue. These shares would rank for dividends declared in the financial year ending December 31, 1959.

This will absorb \$10 million of the proposed increase of \$20 million in the authorised capital and it is not proposed to issue the remainder until future development made it necessary.

"The Directors have made this statement of their intentions as they feel it will be of advantage to shareholders to be given early notice of the prospective offer," Mr Benson said.

"After a careful review of the estimated earnings of the company, they are of the opinion that the present dividend may be expected to be maintained on a capital of \$40 million provided that there is no unforeseen delay in bringing new equipment into service."

**'Dead Man Not Positively Identified'**  
**Barrister Wants Fingerprints To Be Compared**

A body claimed by police to be an allegedly murdered harbour pilot had not yet been positively identified, as the missing man, a barrister said in the Criminal Court today.

The barrister, Mr D. A. L. Wright, asked that fingerprints taken from the dead man be compared with the print on the pilot's identity card.

Mr Wright is appearing for Cheung Yue-wing, 52, senior harbour pilot, who has pleaded not guilty of the murder of Chan Yuen, 34, on March 7.

Divisional Detective Inspector George James Batts of the Marine Police told Mr Justice Scholtes that fingerprints had been taken from a body alleged to be that of Chan Yuen.

The fingerprints, however, had never been compared with the print on Chan's identity card.

Mr Wright applied that the two sets of prints be compared by a police fingerprint expert. "I think it is a matter of very great importance," Mr Wright said.

"Nobody has really yet said that they can identify this man by his face.

"They have identified various marks which are common marks in people's wrist, a vaccination mark."

### The Height

The police pathologist, Dr T. M. Teoh had said that the face of the body had been swollen and decomposition had set in when it was taken from the water on March 18.

The height of the body given by the doctor was 5 ft 8 inches

### "The Rae Johnstone Story"

The Rae Johnstone Story, a brutally frank expose of the race tracks in Europe, begins in Saturday's Mail issue. Written by the great jockey, it is the most sought after account in recent years, and has been secured for China Mail readers because it is an honest — often sensationalist — story of his life on and off the race tracks.

Rae, in a fast-moving narrative, writes about "The Big Bribe — £10,000 to Lose This Derby," "How to 'plant' a Winner," "Fixing A Race — How It's Done."

In "The Rae Johnstone Story," the China Mail has obtained the hottest book to come out of racing. It's a MUST for anyone interested in the real facts behind the "sport of kings."

Begins on July 5th exclusively in Saturday's

## \$29,000 TIN OF 'TEA' FROM HONGKONG DISCOVERED

Manila, July 3.

It was reported last night that Cebu City customs and postal authorities had uncovered an attempt to smuggle morphine into the city through the mail from Hongkong.

Customs and postal officials, the Philippines News Service reported, yesterday seized 850 grams of morphine found hidden inside a tin of tea sent through the post.

The morphine was valued at about HK\$29,000.

Customs, postal and city police detectives waited two weeks for someone to claim the goods before the contraband was ordered seized yesterday.

"Andres T. Gomez" of Hongkong was the name given by the sender of the tin of tea, which was consigned to "Pedro Gomez" of Capitol Road, Cebu City.

Manila customs inspector discovered the contents of the can on June 10. They sent the package to Cebu

and tipped off the authorities here.

The Cebu City address turned out to be a vacant lot and the addressee unknown.

The Cebu customs secret service chief revealed that a similar package was also sent through the post some two months ago.

It was sent by "Pedro Gomez" to "Maria Teresa Gomez," also of Capitol Road. The package, however, did not contain contraband but pure tea.—U.P.L.

## 11 pm RAID BY POLICE And Today 21 Are Fined For Gambling

Twenty-one people appeared before Mr A. L. Leathlean at Central Magistracy this morning, on a charge of gambling in a common gaming house.

A 30-year-old stable groom, Ho Shing, living at the Hong Kong Jockey Club stables quarters, was fined \$150 or six weeks' imprisonment for keeping the common gaming house.

Another man who pleaded not guilty was discharged when no evidence was offered against him.

The 19 other defendants who all pleaded guilty to gambling in the gaming house, were fined various sums ranging from \$10 to \$50.

### RUSSIAN POKER

It was stated that a police party raided 12, Min Fat Street, second floor, last night at 11 pm.

Some of the defendants were found to be playing mahjong while others were gambling by playing Russian poker. They were all arrested and charged.

A total of \$61.60, which was seized, was ordered to be confiscated.

Sub-inspector R. Ma prosecuted.

## Let The Queen Live In The Commonwealth

(Continued from Page 1)

He comments: "Why only British? Inasmuch as the narrower routine of past years has nevertheless enabled her to see much more of life in Britain than in other parts of the Commonwealth, would it not have been better to put the whole emphasis upon Commonwealth activities at this stage?"

Chung said he saw accused enter the hotel and followed her to a room where the complainant, a 22-year-old woman, who was lying on a couch, identified her as the person who had performed an illegal operation on her.

### MANHANDLED

In cross-examination, accused asked witness whether he knew that she had been "manhandled" by four detectives and forced to admit certain things. Witness said he had no knowledge of such allegations.

Earlier, accused objected to the admissibility of a statement which she allegedly made to the Police in answer to the charge. His Lordship overruled her objection, holding that it was not a valid objection.

The statement which was read to the court by Mr Poon Yuk-fung, interpreter attached to CID Eastern was: "You have seen my things. I have nothing to say."

### Hearing is continuing.

"With modern communications, a change of residence

## Remand For Man Charged With Assault

A 25-year-old unemployed man, Ng Ming, who appeared before Mr Hin-shing Lo at Central Court this morning on a charge of assault with intent to rob, was further remanded in police custody for two days for further enquiry.

Ng was alleged, together with others, not in custody, to have assaulted Chui Hak-leung, with intent to rob him, on June 29, in Connaught Road Central. No plea was taken.

## MAIL Notices

The latest times of posting shown below are those for unregistered correspondence posted at Hongkong. Registered and posting times elsewhere which, in general, are earlier than the G.O.T. times, are indicated by a ring at the local office.

The latest posting times for registered articles are generally one hour later than those shown below. Particulars regarding parcel mails can be ascertained by enquiry at any post office.
